checked it out really close and have even changed the starter. I finally called the place I bought it from and they said to turn on the key, turn the steering wheel all the way to the right until it was forced against the end and to hold it there, then to turn off the key, and then turn the key back on.

With most hybrid cars, no special regular maintenance is needed on the hybrid system.

One exception is the Ford Escape hybrid:

The air filter on its electric battery system should be replaced every 40,000 to 50,000 miles (64,373 to 80,437 kilometers).
