The Invaders is an American science-fiction television program created by Larry Cohen that aired on ABC for two seasons, from 1967 to 1968. Roy Thinnes stars as David Vincent, who tries to thwart an in-progress alien invasion despite the disbelief of officials and the general public. The series was a Quinn Martin production.

The Invaders - Wikipedia

THE INVADERS was a not-particularly-terrific science fiction television program from nearly fifty years ago. I remember watching it when I was in the third or fourth grade and liking the aliens; they burned away to nothing when they died, had an extra little finger so the careful viewer always knew who they were, and they had cool flying saucers.

Book Review - "Invaders" by John Kessel. The short-story "Invaders" has a lot of interesting factors to analyze as a science fiction. Choosing which aspect to look into deeply was a difficult task for me and puzzled me for a long time. I ended up deciding to analyze the analogy and dissimilarity between the Spaniards and the Krel, and ...

Book Review - "Invaders" by John Kessel - Han's Notes

With their large brains, sturdy physique, sophisticated tools, and hunting skills, Neanderthals are the closest known relatives to humans. Approximately 200,000 years ago, as modern humans began to radiate out from their evolutionary birthplace in Africa, Neanderthals were already thriving in Europe--descendants of a much earlier migration of the African genus Homo.

Invasive alien species are a great threat to biodiversity and human livelihoods worldwide. The most effective way to limit their impacts and costs is to prevent their introduction into new areas. Identifying invaders and invasions before their occurrence would arguably be the most efficient strategy.
