Army Technical Manual Numbering System

Acces PDF Army Technical Manual Numbering System U.S. Army technical manuals are numbered according to a definite format which evolved over the years. In the modern system, used since the 1960s, the number of the manual contains information that specifies what equipment it describes and what sort of manual it is. LOGSA: The Army's trusted source of

Army Technical Manual Numbering System

But in general, a new number would be issued, especially in the latter 1950s. In 1958, a new FSN (Federal Stock Number) procedure was instituted, which more accurately defined the item in question and linked its TM 11- number to its supply number. (note The lowest number in the system that replaced the TR's (Technical Regulation) is TM 11-200.

TM Numbering Specification - RadioNerds

These are manuals, which are official U.S. Army publications concerning enemy equipment or forces. The letter E in the manual number indicates that a particular manual is an enemy manual. For example, Technical Manual TM E9-803 on the German Volkswagen appears just after Technical Manual TM 9-803 on the Jeep.

Introduction - United States Army Technical Manuals: A ...

The current U.S.Army manual number system was started at the beginning of the Second World War. The primarily types of manuals became either FM's (Field Manuals), or TM's (Technical Manuals), later followed by a bewildering arrangement of lesser Prefixes like TC (Training Circulars). ST (Special Texts), FC (Field Circulars), just to name a few.

The Mystery of Manual Numbers - Military Info

TECHNICAL MANUAL IDENTIFICATION NUMBERING SYSTEM. The Technical Manual Identification Numbering System (TMINS) is a method of classifying, indexing, and numbering Navy technical manuals.
