I have an old D333 engine, S/N 99G1014 that was used to power a 79B to 79B2631 genset. Parts on the exciter board failed and the engine was was robbed to fix other engines. This was an engine out of the late 60's. I recently acquired another engine, alleged to be a D333 engine, S/N 66D6097. After getting it home, I realized that this may be a D3306.
