Well, I got word from MacMulkin today that my 2020 order will be canceled and by July 31, my order will be resubmitted as a MY 2021. I was number #68 in March before the stop, so I am hoping to be in a similar or better position when the orders for MY 2021 are submitted at the end of the month. So, for the rest of the

The GM Ecotec engine, also known by its codename L850, is a family of all-aluminium inline-four engines, displacing between 1.4 and 2.5 litres. While these engines were based on the GM Family II engine, the architecture was substantially re-engineered for the new Ecotec application produced since 2000. This engine family replaced the GM Family II engine, the GM 122 engine, the Saab H engine, and ...

The North American Sabreliner, later sold as the Rockwell Sabreliner, is an American mid-sized business jet developed by North American Aviation. It was offered to the United States Air Force (USAF) in response to its Utility Trainer Experimental (UTX) program. It was named "Sabreliner" due to the similarity of the wing and tail to North American's F-86 Sabre jet fighter.

The picture of the round label is on the pump itself. The rectangular label is located on the side of the motor/pump mount plate on the tank. I believe this model was originally a gas-engine driven unit meant to be truck mounted. I put a 2hp repulsion-start 110v electric motor (from an old Craftsman wood planer) on it. I have also painted the ...
