Factory Five Racing GTM Supercar Manuals

The GTM addresses different applications, typical for a timer module. One is the generation of PWM signals to drive external actuators. Besides the generation of output signals, input signals have to be measured and characterized for further processing. Table 1.1 summarizes some typical applications the GTM-IP can handle

Overview and Application examples GTM-IP

With the gluing of the exhaust mesh pieces into place I have officially completed the GTM Assembly Manual. I removed the diffuser to get to the underside of the mesh easier. Hopefully the weatherstripping trim pieces will hold up to the exhaust temperatures, but if not I will either roll the mesh back (like the manual has you do), or come up ...
