most notable exception was in 2014, when Honda decided to forgo an in-house designed transmission and chose the ZF 9HP transmission for their Acura TLX V6 model, later extending the offering of the ZF transmission to the ...

List of Honda transmissions - Wikipedia

Generally, a given model offers either a CVT or a conventional automatic. The Honda Accord is the rare vehicle that offers both types. But in this case either transmission is available only with a specific engine, so buyers still don't have a choice in the matter. Though there are no gears in a CVT, some allow manual "shifting."

Pros and Cons of a CVT (Continuously Variable Transmission ...

The Honda models with the CVT are the most reliable among all the lineups and CVT transmission life expectancy is the longest. However, the automakers have been working relentlessly to improve the technology. Almost all the newer models of the brands are better than their predecessors. 3.
