by. Chris Brooks. 3.94 · Rating details · 64 ratings · 2 reviews. This best-selling textbook addresses the need for an introduction to econometrics specifically written for finance students. Key features: - Thoroughly revised and updated, including two new chapters on panel data and limited dependent variable models - Problem-solving approach assumes no prior knowledge of econometrics emphasising intuition rather than formulae, giving stThis best-selling textbook addresses the need for ...

Introductory Econometrics for Finance by Chris Brooks

2 Introductory Econometrics for Finance by Chris Brooksuse either of the two points together with the intercept to obtain thegradient. Hence find the gradient by solving $y = a + bx$ for a with $b = -(2/3)$, $x = 4$, $y = 2$; so $2 = a + -(2/3) 4$, $a = (14/3)$ and the line is $y = (14/3) -(2/3)x$. 8.
