Knowledge intensive sectors. The OECD identifies high and medium tech manufacturing; high value added "knowledge intensive" market service industries such as finance and insurance and telecommunications; and business services. The current OECD definition also includes education and health. The Work Foundation has extended this definition in the recent Ideopolis report to capture a higher share of employment in the cultural and creative industries.

What Are The Knowledge Intensive Sectors - TheEducators Co

KIBS are those business services that are knowledge based, both based on social and institutional knowledge (as many traditional professional services, such as accountancy or management consultancy) or more technological knowledge (such as computer, R&D and engineering services). 2 The rise of KIBS is, to a significant extent, the outcome of the increased technical and social division of labour within manufacturing production (Miozzo and Soete, 2001).
