GSW Series - PRAMAC

Pramac, the leader in power generators and handling equipment, is proud to introduce a new range of diesel powered mobile generators. With the customer requirements as the driver, this line is designed to exceed the needs of any application, from 9 to 760kVA (PRP), offering a solution to tomorrow's operational challenges.

PRAMAC: leader for power generators and handling equipment

The Pramac GSW80 model produces 83kVA of three phase power using the world leading Perkins Diesel engine. The Italian manufactured alternator includes a digital voltage controller which delivers voltage accuracy to within 1%. A 209 litre fuel tank provides 16 hours of uninterrupted running time at 75% load.
