In *Rats*, the critically acclaimed bestseller, Robert Sullivan spends a year investigating a rat-infested alley just a few blocks away from Wall Street. Sullivan gets to know not just the beast but its friends and foes: the exterminators, the sanitation workers, the agitators and activists who have played their part in the centuries-old war between ...

observations Sullivan delves into the literature of rats in New York City and individuals who are intimately involved with rats. As a result of his research he arrives at many interesting conclusions. Most attention to rats throughout the history of the city is focused on the conflict between man and rat.
