Common scientific misdeeds include removing data points that contradict your hypothesis. Not disclosing personal or professional ties to commercial interests. Having improper personal relationships with graduate students and research subjects. Using other people's ideas without giving them credit.

### **Sins against science - American Psychological Association**

Ritchie's four cardinal sins – fraud, bias, negligence and hype – are found across the sciences. Fraud is staggeringly common: of all papers retracted for any reason, more than half are retracted for consciously unethical behaviour like fraud or plagiarism, rather than because some accidental error has been found.

The GM lobby and its 'seven sins against science' ... shows a wilful disregard for basic scientific principles. The fifth sin. ... and companies have been responsible for part at least of the sad decline in both public understanding and confidence in science and scientific evidence. Peter Melchett is Policy Director at the Soil Association.

### **The GM lobby and its 'seven sins against science'**

Science is a religion-- an evil, godless religion that isn't just Bad and Wrong, but unethical by nature. And like all religions, it has sins--or, rather, "virtues". These are the sins that a Mad Scientist commits in his quests For Science!.

### **Scale of Scientific Sins | All The Tropes Wiki | Fandom**

In the spirit of Dante Alighieri's Inferno, this paper takes a humorous look at the fate that awaits scientists who sin against best practice. The Divine Comedy of Dante Alighieri is a classic of world literature and was the first major work in the Italian language. In the first book of the trilogy, Inferno, Dante offers a tour of the nine increasingly horrible levels of Hell, in which the wicked are tormented forever in ways corresponding to their sins.

### **Scale of Scientific Sins - TV Tropes**

The proposed actions to curb climate change cannot be justified by empirical science. The new teaching on “ecological sin” may be the most anti-scientific and anti-developmental pseudo-Biblical policy to come from the Vatican in this century. Not only Protestants but also Roman Catholics should oppose it.

The relationship between science and the Catholic Church is a widely debated subject. Historically, the Catholic Church has often been a patron of sciences. It has been prolific in the foundation and funding of schools, universities, and hospitals, and many clergy have been active in the sciences. Historians of science such as Pierre Duhem credit medieval Catholic mathematicians and ...

The Church Opposes Science: The Myth of Catholic Irrationality. Many people believe that faith and reason, or religion and science, are locked in an irreconcilable war of attrition against one another. One must choose to be a person of learning, science, and reason, or choose to embrace religion, dogma, and faith alone.

### **The Church Opposes Science: The Myth of Catholic Irrationality**

Christianity and Science. Christianity and Science - Introduction When it comes to Christianity and Science, perhaps nothing has troubled believers more in the last century than the question of the origin of life. 1 Because many biologists (both Christian and non-Christian) treat evolution as a scientific fact, Christians have struggled to reconcile their faith in the Bible with the “facts ...

### **Christianity and Science**

There is much debate in our culture between science and the Bible.1 Others suggest that science should drive our understanding of religion. Still others argue that religion should drive our scientific understanding. There are truly deep divisions in many senses as people claim different sources of authority on these issues.
