Finally, through a consideration of the ethics of otherness, and with reference to recent human rights violations, it is argued that the end of human rights is to judge law and politics from a position of moral transcendence. This is a comprehensive historical and theoretical examination of the discourse and practice of human rights.

The notion of person rights, on the other hand, is not revolutionary at all. On this view, individuals have rights only because the state has deemed them persons. In other words, individuals have rights only because the state has decided to grant them rights. Thus, the state remains the final authority.
